RECEIVED  
APR 30 2004  
TECHNOLOGY CENTER 3700

Sir/Madam:

In Paper No. 17 "Claim 1 [the claim on appeal] is rejected under 35 U.S.C. 103(a) as being unpatentable over Fairbanks et al. (US 2,613,365)" and at page 4 starting in line 11, the examiner "... takes Official Notice ... to substitute ... male and female snap components ... with VELCRO hook and loop fasteners ..."

In the REMAND TO THE EXAMINER (Paper No. 16), it is believed it was the Board's position that "there would appear to be no excuse for not positively including the reference[s] [the Gershman article and the "Living Easier with VELCRO" article] in the statement of the rejection" in which said references are the basis for the examiner's taking of Official Notice of facts along with what is disclosed in Fairbanks et al. in rejecting the claim on appeal.

It is accordingly respectfully requested that the Examiner's Answer filed as Paper No. 17 be disregarded as not in compliance with the Board's instructions of the REMAND TO THE EXAMINER.

Additionally, the Board stated that "no supplemental examiner's answer should be permitted" and Paper No 17 appears to be a supplemental examiner's answer.

Respectfully,

MYRON AMER, P.C.  
Attorney for Applicant
